

Naval Aviation Chemical, Biological, Radiological, Nuclear Defense (CBRND) Coordinators

*Meeting the Needs of the
Fleet*

09/08/16

Current Situation in Naval Aviation CBRND Programs

- CBR-D much more in the spotlight
- Ship-based units have always depended on ship for training and equipment.
- Expeditionary units had been left out.
- Equipment now provided by central inventory system for expeditionary air, and still by ships.
- Many ongoing initiatives to improve programs, requirements, training, reporting, etc.
- The CBRND Coordinators provide an interim training solution.

End State Objectives in CBRD Program

- Coordinated, clear policy and guidance up/down CoC (CNO, FFC, TYCOMS, TYPEWINGS, etc.)
- TYPEWINGS are a critical node for Training
 - Manage/implement CBRD Program.
 - Define T/M/S specific training details.
 - Maintain resources for unit training.
 - SME's provide training or assist with unit training.
 - Certifies unit ready to deploy wrt CBRD.

What We Do

- Support the Navy's CBRD Program
- Interim solution for TYPEWING
- Provide Assistance to Naval Aviation Units
 - Wing/Unit CBRD Program Development
 - CBRD IPE Support
 - On-site Fitting and Indoctrination
 - Unclassified Briefs
- Mobile Training Team - travel to your site

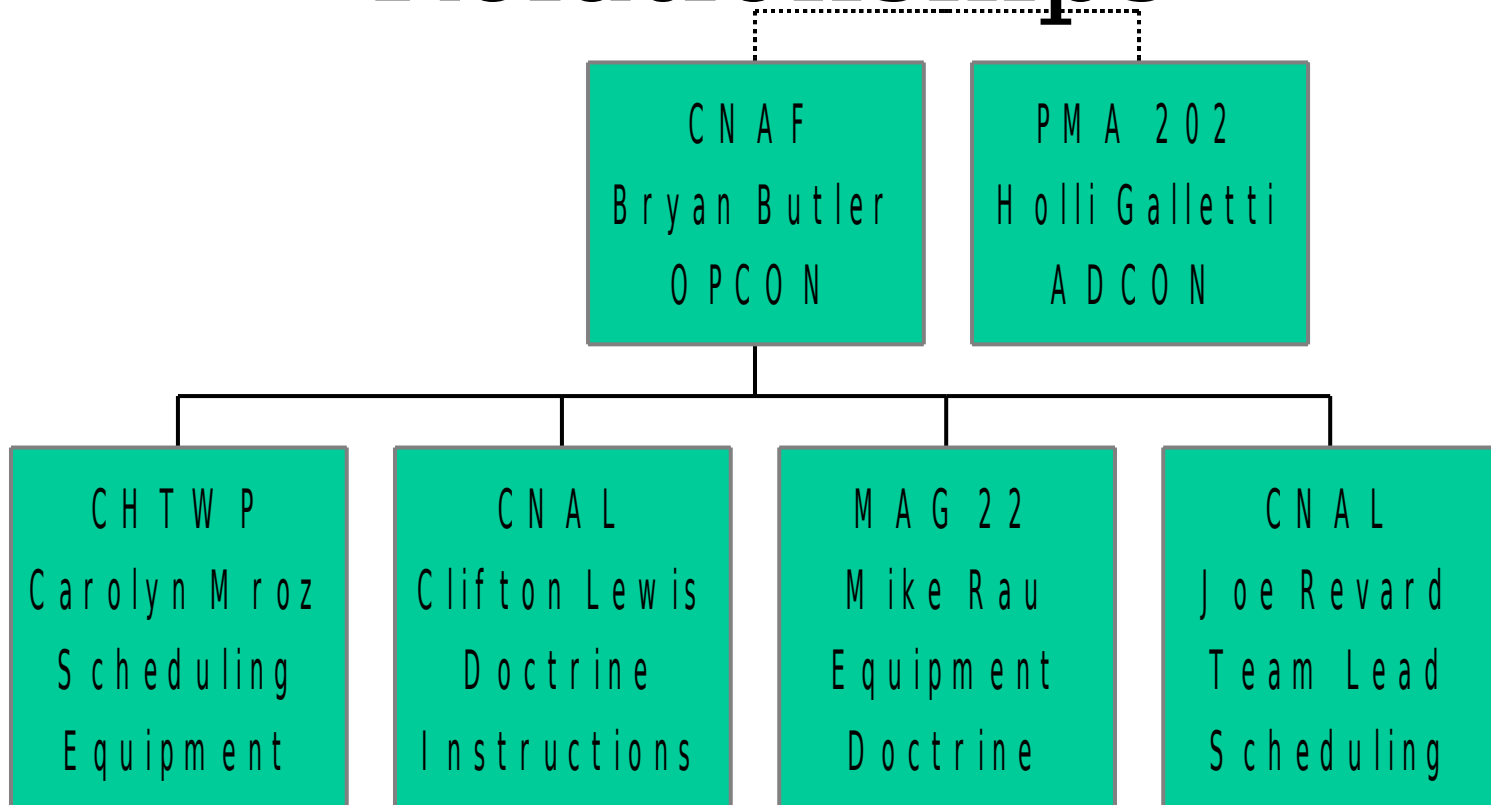

Available Services

- Unit CBRD Program Development
 - Lesson Plans, Resources, Training Gear
- “Train-the-Trainer” Training
- Ground IPE Indoctrination
- Quantitative Fit Testing
- Assessment Visits
 - Evaluate CBRD Training, Instructors, Gear
- Assist with gear return, post-deployment
- CBRD Program/Info Reachback capability

Who We Are

- Chartered by OPNAV
- Managed by NAVAIR PMA 202L
- Operational Direction from CNAF N34R
- Current team is made up of contractors.
 - Battelle Memorial Institute contractors
 - Retired Navy/Marine Corps CBRD experts

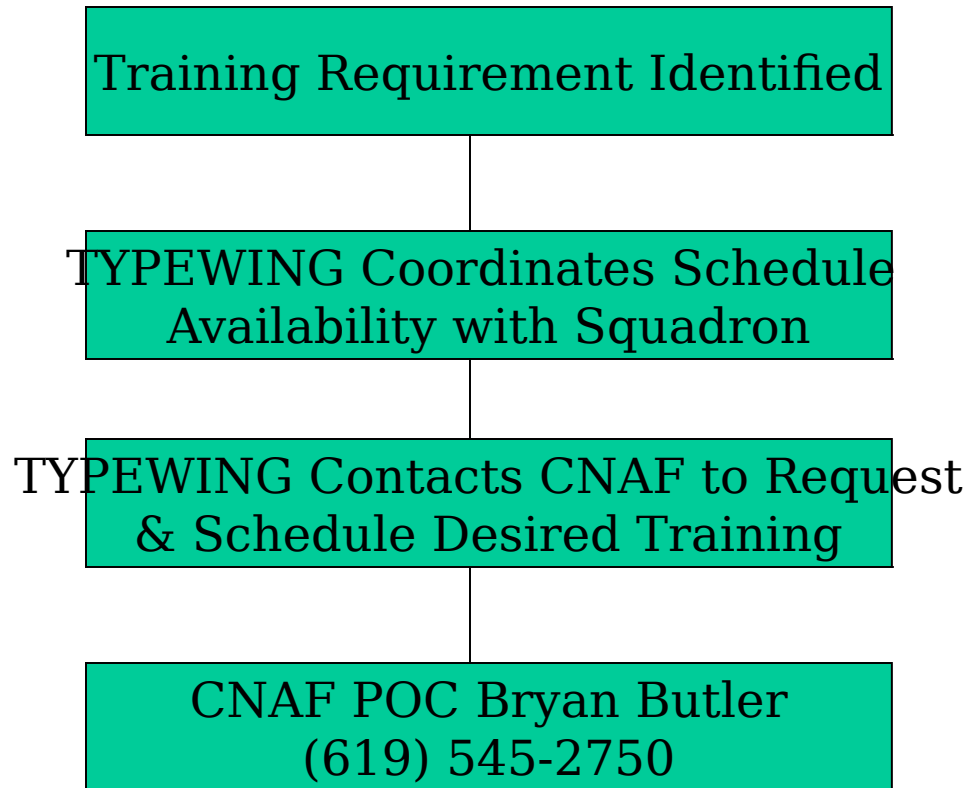

Organizational Relationships

Where We Are

How To Request Services

Concept of Operations

From Service Request to End of Deployment

- CNAF coordinates schedule through TYPEWING.
- CBRND Coordinators contact unit and provide logistic details.
- CBRND Coordinators request masks and training gear from warehouse.

Concept of Operations (Continued)

- Masks and training gear are shipped to squadron.
- Masks are issued to squadron members, but remain in the squadrons possession. (To facilitate training)
- Sizing data is recorded in database.

Concept of Operations (Continued)

- Prior to deployment, squadron requests CBRD IPE kit bags via CNAF. (Using sizing database) – allow time for kitting (50 bags per day), and shipping.
 - Carolyn.mroz@navy.mil
 - Bryan.f.butler@navy.mil
- Individual bags managed according to operational situation. Issued to personnel and opened as directed.

Concept of Operations (Continued)

- Post-deployment, all gear (including masks) is returned to warehouse.
